DOCKETED BY	<i>nr</i>
-------------	-----------

"The Commission is concerned with the ongoing drought in Central Arizona and takes judicial notice of the proximity of this proposed master-planned development to the Hassayampa River. Accordingly, one consideration in this case is whether Wickenburg Ranch should be required to adopt purple pipe to the home site for use in outdoors household irrigation. At least one other regulated water Company has announced plans to take purple pipe to the home site for outdoor irrigation, and we take judicial note of the fact that the Arizona Department of Environmental Quality has promulgated a rule that facilitates the use of purple pipe for outdoors residential irrigation (R18-9-701: Direct Reuse of Reclaimed Water). Therefore, we believe it is in the public interest to require, as a compliance item in this case, appropriate tariffs for Commission consideration that would require the installation of a treated wastewater reuse system that allows for the reuse of such treated wastewater at individual homes. These tariffs shall contain, at a minimum, the requirements for such reuse, details of the estimated costs of construction and operation, proposed customer fees and charges, and any other information that Wickenburg Ranch believes would assist the Commission in evaluating this treated wastewater reuse system. These tariffs shall also demonstrate compliance with all applicable requirements of ADEQ and any applicable plumbing codes."

Page 20, line 4.5, INSERT NEW ORDERING PARAGRAPH:

"IT IS FURTHER ORDERED that Wickenburg Ranch shall file by July 31, 2009, as a compliance item in this case, appropriate tariffs for Commission consideration that would require the installation of a treated wastewater reuse system that allows for the reuse of such treated wastewater at individual homes. These tariffs shall contain, at a minimum, the requirements for such reuse, details of the estimated costs of construction and operation, proposed customer fees and charges, and any other information that Wickenburg Ranch believes would assist the Commission in evaluating this treated wastewater reuse system. These tariffs shall also demonstrate compliance with all applicable requirements of the Arizona Department of Environmental Quality and any applicable plumbing codes."

Make all conforming changes as necessary.
